

The Blue Carbon® certification programme is proud to grant the **Blue Level** certificate to **FM DENIM CO LTD** based on ID report OLCAS31422 FM Denim for the organisation with carbon mitigation achievement.

Rexizon C.E. Ltd declares to have audited the site(s), and/or inspected site(s) of the above company, for carbon footprinting relating 13 years of progress in 2023.

A life cycle assessment from “cradle-to-grave” in accordance with ISO 14044 and ISO 14067 guidelines, and BSI PAS2050 recommendations for 1, 2 scopes and partial scope 3 with commuting and business travelling including all green house gasses (GHG) stipulated within the Kyoto protocol were addressed using a set of reference materials representative of the most recent and geographical relevant emission factors available and published from respected technical sources.

This certificate is in force until further notice, provided that the above-mentioned company continues meeting the conditions as laid in the company contract conditions with Rexizon C.E. Ltd.

Based on the annual inspections that Rexizon C.E. performs, this certificate is updated and kept into force.
